

CALLAHAN *Table of Contents*

INTRODUCTION	0-1
STEP 1 - CHARACTERIZATION	1-1
STEP 2 - ISSUES AND KEY QUESTION.	2-1
STEP 3 - CURRENT CONDITIONS	3-1
Watershed Processes	3-1
Riparian Areas	3-6
Aquatic Dependent Species	3-10
Vegetative Biodiversity	3-11
Fire and Fuels Organization	3-15
Terrestrial Wildlife	3-15
Roads	3-18
Commercial Timber Outputs on Public Land	3-20
Human Uses	3-21
STEP 4 - REFERENCE CONDITIONS	4-1
Historic Overview	4-1
Watershed Processes	4-2
Riparian Areas	4-3
Aquatic Dependent Species	4-5
Vegetative Biodiversity	4-5
Fire and Fuels Organization	4-6
Terrestrial Wildlife	4-7
Roads	4-7
Commercial Timber Outputs on Public Land	4-7
Human Uses	4-7
STEP 5 - INTERPRETATION	5-1
Watershed Processes	5-1
Riparian Areas	5-6
Aquatic Dependent Species	5-10
Vegetative Biodiversity	5-11
Fire and Fuels Organization	5-15
Terrestrial Wildlife	5-15
Roads	5-18
Commercial Timber Outputs on Public Land	5-20
Human Uses	5-21
STEP 6 - RECOMMENDATIONS	6-1
Table Column Definitions	6-1
APPENDICES	
A - LMP Feedback	A -1
B - Flood Assessment	B -1
C - Endangered Species Act and Other Species Considerations Questions and Answers	C -1
D - Fire and Fuels	D -1
E - Fisheries Habitat	E -1
F - Special Areas Report	F -1
G - Cumulative Watershed Effects	G -1
H - Numeric Listing of Roads and Their Status	H -1
I - Road Issues and Concerns, and Resource Concerns	I -1
J - Timber Yield Calculations	J -1
K - Old Growth Acreage	K -1
X - Recommendations for Riparian Reserve Delineation and Management in the Callahan Watershed	X -1

LITERATURE CITED

LC-1

FIGURE NO. AND TITLE

- 0-1 Watershed Vicinity Map
- 0-2 Completed Landscape Analyses/Watershed Boundaries
- 1-1 Lower South Fork Base Map
- 1-2 Forest Plan Management Areas Updated During This Analysis
- 3-1 Simplified Lithology
- 3-2 Subwatersheds and Forest Plan Areas with Watershed Concerns
- 3-3 Geomorphic Terranes
- 3-4 Watershed Disturbances
- 3-5 Habitat Inventory Reaches
- 3-6 Riparian Reserve Types
- 3-7 Riparian Reserve Vegetation
- 3-8 Fish Species Range
- 3-9 Existing Vegetation
- 3-10 Late/Mature and Old-Growth Stands
- 3-11 Suitable Northern Spotted Owl Habitat
- 3-12 Fire History
- 3-13 Timber Mortality (1993-1996 Aerial Surveys)
- 3-14 Fuel Models
- 3-15 Fire Behavior Potential
- 3-16 Suitable Habitat for Pine Marten
- 3-17 Current Transportation System
- 3-18 Recreation Features
- 4-1 Historic Features
- 4-2 Road System Development
- 5-1 Updated Areas with Watershed Concerns
- 5-2 Methodist Creek Stream Study
- 5-3 Potential Late-Successional Habitat
- 5-4 Fuels Treatment and Fire Management Considerations
- 5-5 Road Damage - 1997 Flood
- 5-6 Road Density
- 5-7 Lands Available for Scheduled Timber Harvest
- 6-1 Management Opportunities (1 of 4) -
- 6-2 Management Opportunities (2 of 4)
- 6-3 Management Opportunities (3 of 4)
- 6-4 Management Opportunities (4 of 4)

CALLAHAN *Table of Contents* (continued)

TABLE NO. AND TITLE

1-1	Management Area Acreage
3-1	Subwatershed Acreage and Percentage of Bedrock Types
3-2	Percentage of Geomorphic Terranes by Subwatershed
3-3	CWE Analysis Subwatershed Road Density and Timber Harvest Acreage
3-4	Subwatershed Sensitivities
3-5	Non-Reference Habitat Parameters
3-6	Water Temperature Data for Selected Streams in LSF Watershed (1990-1994)
3-7	Water Supply Streams
3-8	Vegetation Classification in Mapped Riparian Reserves
3-9	Adult Fish Species Presence
3-10	Chinook Redds in Lower South Fork Salmon
3-11	Estimated Holding Adult Populations of Summer Steelhead and Spring Chinook
3-12	Acreage and Percentage by Vegetation Community
3-13	Acreage and Percentage Seral Stage and Stand Density by Vegetation Type
3-14	Seral Stage Classification
3-15	Fire Behavior Potential
3-16	Fire Suppression Organization
3-17	Preferred Fire Suppression Organization
3-18	Suitable Spotted Owl Nesting/Roosting and Dispersal Habitat Acreage
3-19	Travel Access Management Mileage-National Forest Roads Only
3-20	Road Mileage by Road Template and Surface Type - All Roads
3-21	Functional Classification- All Roads
3-22	Road Maintenance Level Mileage- All Roads
3-23	Summary of Timber Acres, Volumes, and Growth Potential For Matrix Lands
4-1	Reference Habitat Parameters
5-1	Management Area Acreage
5-2	Subwatershed Landslide Volumes
5-3	Equivalent Roaded Area and Threshold of Concern
5-4	Reference Habitat Components
5-5	Water Temperature Data for Selected Streams (1990-1994)
5-6	Stream Mileage for Methodist Creek Stream Study Area
5-7	Old-Growth Acreage by Vegetation Type
5-8	<i>Forest Plan</i> and Updated Lands Capable, Available, and Suitable for Scheduled Timber Harvest
5-9	Acres of Harsh Site by Matrix Land Allocation
5-10	Existing and Desired Seral Stage Distribution
6-1	ISSUE - Watershed Processes
6-2	ISSUE - Riparian Areas
6-3	ISSUE - Aquatic Dependent Species
6-4	ISSUE - Vegetative Biodiversity
6-5	ISSUE - Fire & Fuels Organization
6-6	ISSUE - Terrestrial Wildlife
6-7	ISSUE - Roads
6-8	ISSUE - Commercial Timber Output on Public Lands
6-9	ISSUE - Human Uses
